

Paint Stripper and Varnish Remover SE-2

For the easy removal of old paints, coatings and glazes

Scope of application: Removal of old paints and coatings (synthetic resin varnish, oil-based paint, acrylic paint, 2-K water soluble materials, etc.) on solvent-resistant grounds, such as wood, plaster surfaces, metals, concrete, etc.

Also suitable for removing glazes (especially thin-film).
Several old coats can be removed in a single working step.
Never cover the area with a foil during the reaction time.

Properties: Short reaction time
pasty, thus it can be also used without any problem on vertical surfaces;
no additional rinsing required
equally applicable to remove thin-film glazes
bio-degradable
no covering required

Technical specifications: Raw material base: formulation consisting of different solvers, thickener

Make-up ratio: undiluted

Consumption: 350 - 450 ml/m²

Processing: Stir Geiger Paint Stripper SE-2 well before use, then apply it with a thickness of 3-5 mm with a brush or spatula on the dry surface and leave it to react for at least 10 minutes. The reaction time depends on the type of the paints and coatings, as well as on the number of layers that have to be removed (10 minutes up to 3 hours). Remove Paint Stripper SE-2 with a spatula and dispose of it properly. Dried out residues of the paint stripper can be removed with a brush. Then rub the surface with a soft cloth. The thoroughly cleaned surface can immediately be coated again, without additional rinsing. Always a trial area must be applied at an unobtrusive point to verify the tolerability.

Always clean the tools thoroughly with water immediately after use.

Identification: Please refer to the EC safety data sheet for the pertinent information.

Storage property: Store the paint stripper in a cool, dark and dry place.

Other: Always read the label and product information before use.

Example: If the paint stripper has been applied on a surface with several coatings in the evening, the next morning it can be completely removed by means of a spatula or brush together with the old paint.
