

Profi - Star Cleaner

Easily biodegradable cleaning concentrate for all washable surfaces.

Scope of application: Profi-Star cleans surfaces from all heavy soiling and difficult to remove dirt of all types without etching, thus preserving the natural gloss of the surface. Contamination is reliably removed, and Profi-Star has a 100% degreasing effect.

The product is especially suitable for varnished surfaces, carpets and upholstered furniture, kitchen equipment, plastic surfaces, etc. Furthermore, it is an ideal agent for floor cleaning (stone tiles and Linoleum), window frames and all washable surfaces.

Properties: Degreasing;
suitable for all washable surfaces;
biodegradable;
non-corrosive

Technical specifications: Raw material aqueous, alkaline solution of anionic and non-anionic
base: surfactants, phosphates and additives

Make-up ratio: depending on the contamination 1:1 to 1:100

Consumption: 100 to 120 ml/m² of prepared stock solution

Processing: Dilute with water at a ratio of 1:1 to 1:100, depending on the contamination. Spray the solution onto the dirt or use a sponge to apply it (cleaning cloth).

Rewash with clear water after a reaction time of 10 minutes.

Always clean the tools thoroughly with water immediately after use.

Identification: Please refer to the EC safety data sheet for the pertinent information.

Storage property: Store the product in a cool, dark and dry place.

Other: Always read the label and product information before use.

Container sizes: Aerosol bottle with 500 ml (ready to use mixture)
Bottle with 1,000 ml concentrate
Canister with 5 l concentrate
Canister with 10 l concentrate
